THE HOUSE, AT YOUR OWN PACE

1008 Moffett Street

Hallandale Beach / A self-guided visit

Six stops. A different way to see home.

Follow the numbered stops, pause where you like, and take the tour with you.

01 Room to gather

From the front living area, notice how seating, dining and the kitchen share one connected space. Picture an ordinary evening as well as a full house.

02 The everyday center

Pause at the kitchen island. Its relationship to the dining table and living area makes it easy to imagine cooking while staying part of the conversation.

03 A quieter side

Follow the hall to the three bedrooms and existing bathroom. Notice the separation from the main gathering space, the storage and the light in each room.

Illustrative plan, not to scale. Layout, lot shape and placement are approximate. Confirm in person and with a survey.

04 A second place to unwind

The rear sitting room offers a separate place to read, work or watch a film, with a connection to the backyard.

05 Life under cover

Pause beneath the covered lounge. Notice the shaded seating area, ceiling fans and view toward the pool.

06 Stay a little longer

Explore the pool, separate spa and lawn seating. Notice how the outdoor areas offer different places to gather.

One more possibility: ask Fernando about the conceptual second-bathroom study. It is a proposed improvement, not an existing feature or an approved construction plan.
